

Data sheet

EKS 986.1 Edge guard

Our Edge guard EKS 986.1

- is used to protect package edges from contracting when hooping
- is extremely solid
- has ribs to prevent a slipping off of the strap as well as to achieve additional reinforcement
- has two pins penetrating the cardboard and arresting the edge guard for the hooping process
- is an alternative to the edge guard EKS 986.0 and EKS 986.2
- is often used in combination with the tightening strap handles EKS 569.0 or EKS 919.0
- is part of our E-K-S Bioline®
- 100% recyclable

Technical specification:

Weight approx. 7.60 gr.

Raw material depending on the variant:

- 70% HDPE (standard material) / 30 % HDPE regranulate (PIR)
- 100% E-K-S Bioline® sugar cane

Packaging:

500 pcs. / 4.6 kg
2,500 pcs. / 20.5 kg

Did you already know that we can also manufacture our products from biological raw materials on request? We will be pleased to provide you with further information!
